PORTFOLIO

# *Introducing* **ABOUT ME**

I am a 5th-semester student in Universitas Sriwijaya majoring computer engineering. I am a dedicated, creative, and passionate person to continue learning and developing my knowledge in the world of technology

**Ahmad Naufal**  
Web Developer

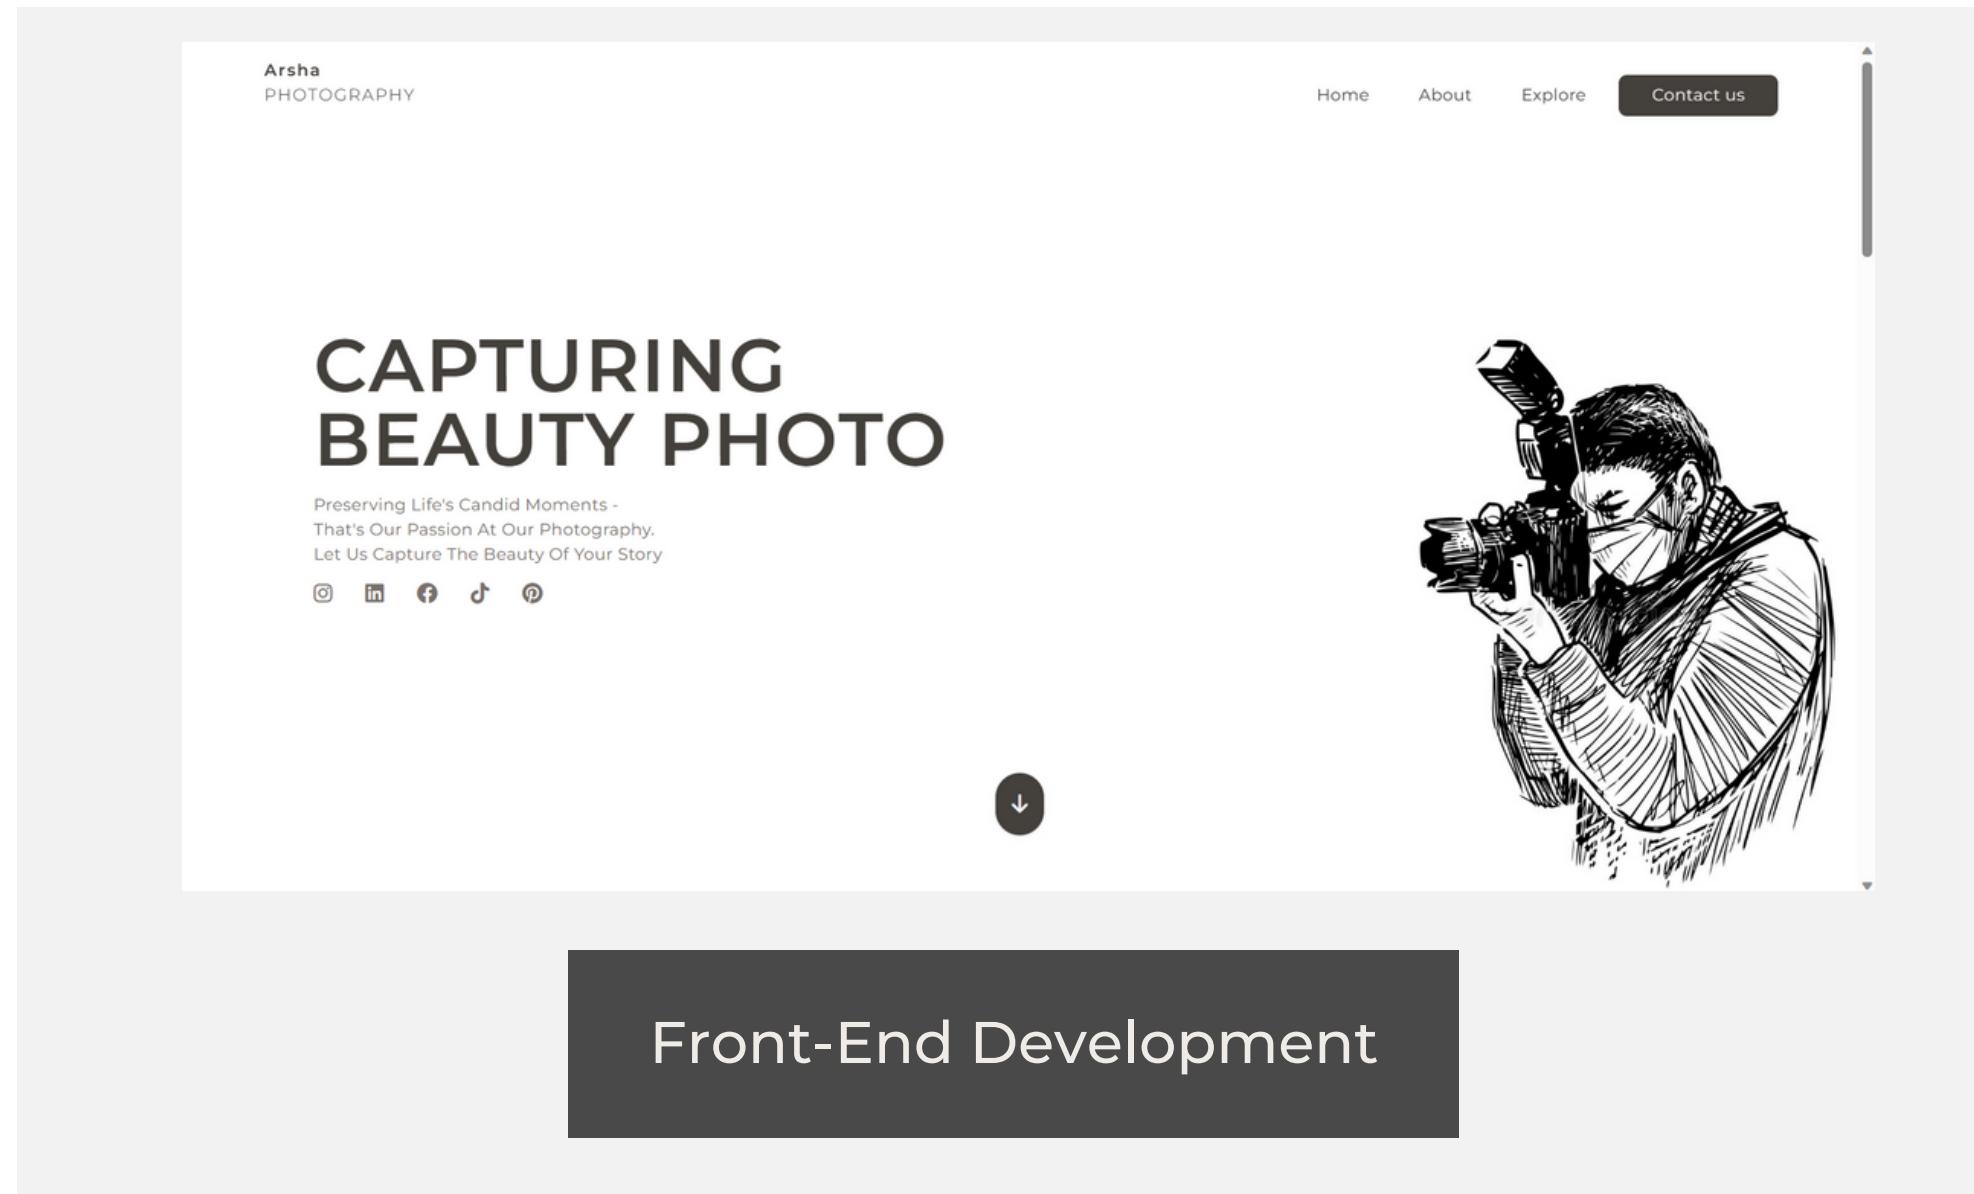

# Personal Skill

As a web developer, I have strong expertise and experience in development using Laravel and Vue.js frameworks. I have been dedicated to mastering both of these technologies and using them as key tools in developing efficient and effective web solutions.

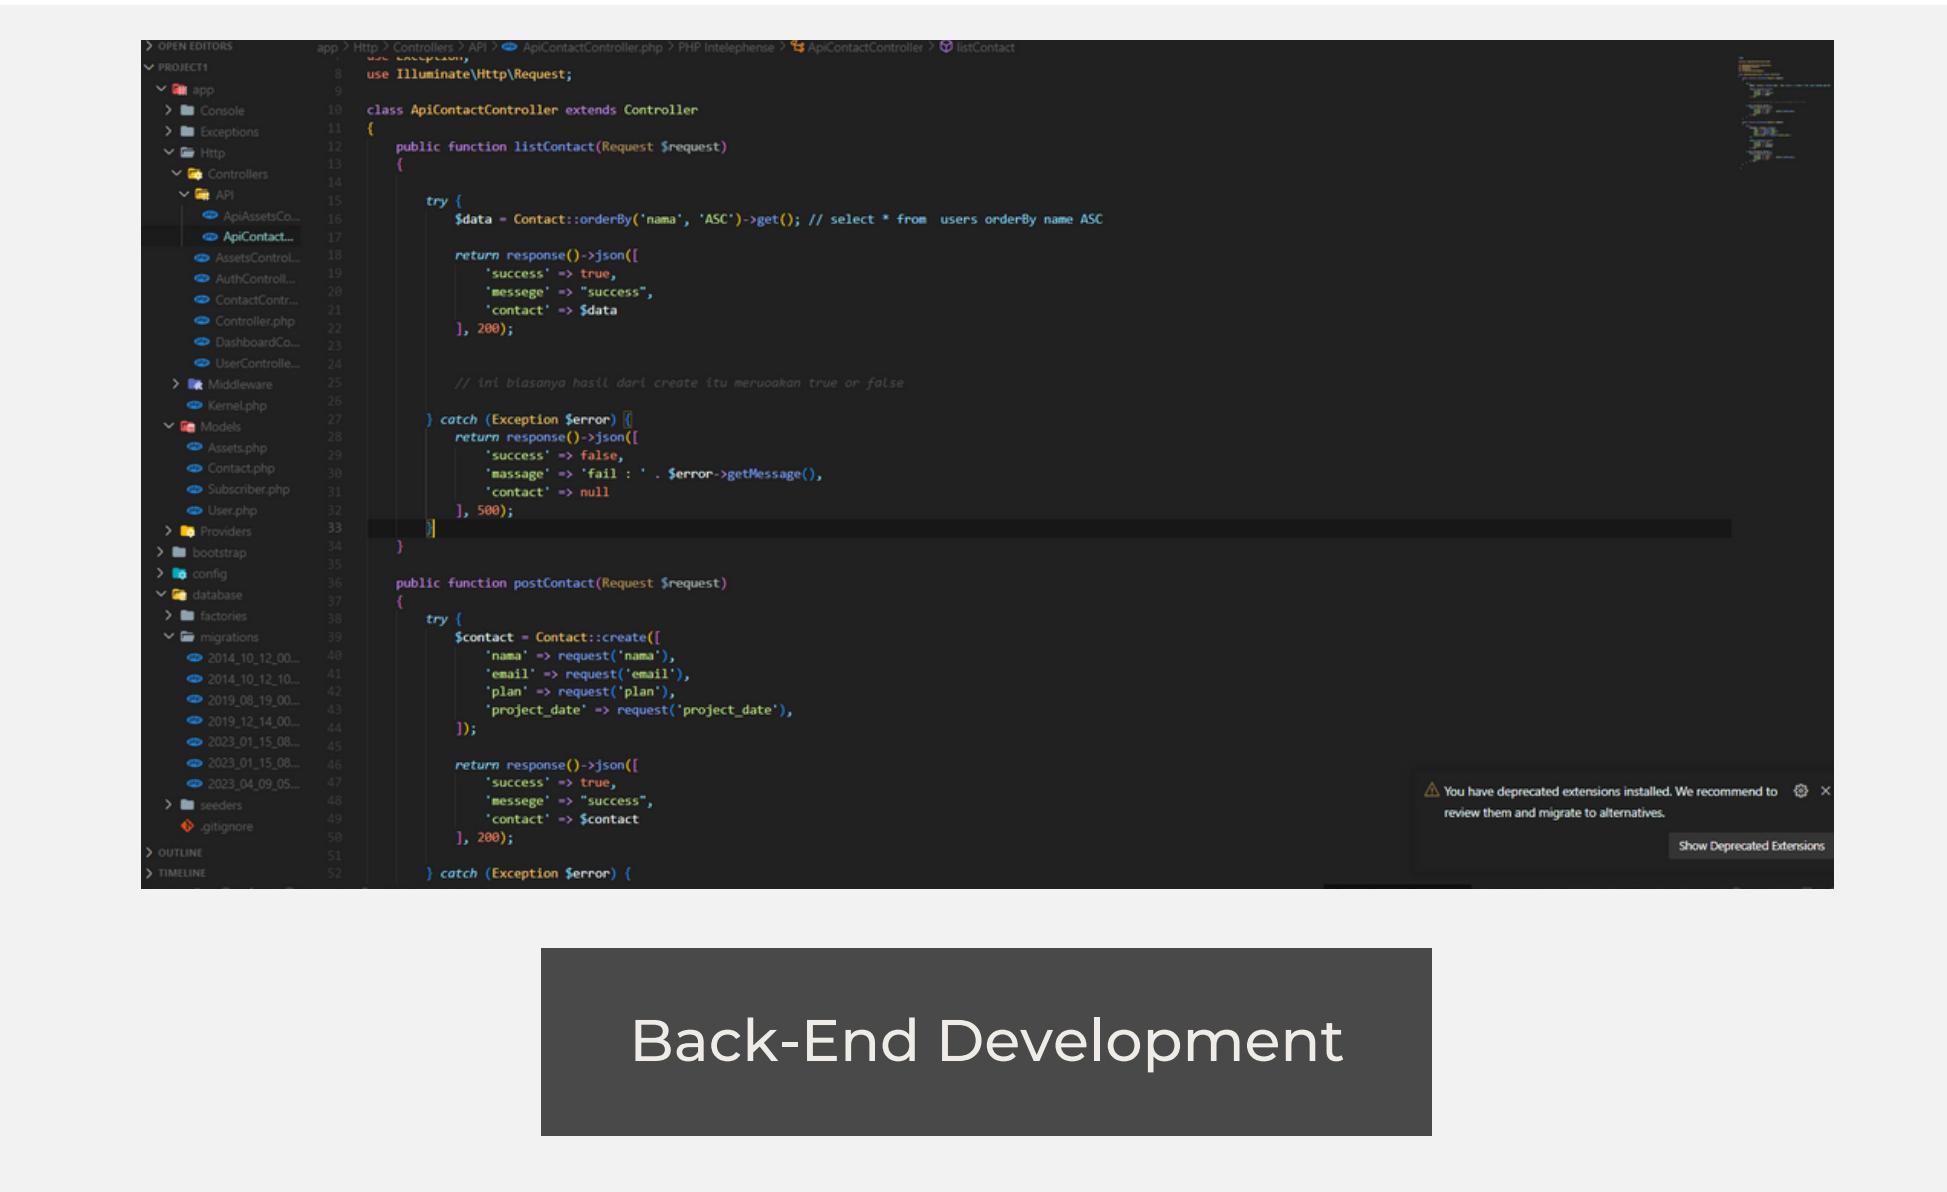

# PERSONAL SKILLS

Crafting immersive digital journeys. Front-End Developer blending design and technology.

# PERSONAL SKILLS

Architecting digital foundations. Back-end developer crafting scalable systems.

The screenshot shows a code editor interface with a dark theme. On the left is a file tree labeled 'PROJECT1' containing various PHP files like 'AppController.php', 'AuthController.php', 'ContactController.php', 'DashboardController.php', 'UserController.php', 'AssetsController.php', 'Assets.php', 'Contact.php', 'Subscriber.php', 'User.php', 'Providers.php', 'bootstrap.php', 'config.php', 'database/factories.php', 'migrations/\*', 'seeders/\*', and '.gitignore'. The main editor area displays the following PHP code:

```
use Illuminate\Http\Request;
use Illuminate\Http\Exceptions\HttpException;

class ApiContactController extends Controller
{
    public function listContact(Request $request)
    {
        try {
            $data = Contact::orderBy('nama', 'ASC')->get(); // select * from users orderBy name ASC

            return response()->json([
                'success' => true,
                'message' => "success",
                'contact' => $data
            ], 200);

            // ini biasanya hasil dari create itu meruukan true or false
        } catch (Exception $error) {
            return response()->json([
                'success' => false,
                'message' => "fail : " . $error->getMessage(),
                'contact' => null
            ], 500);
        }
    }

    public function postContact(Request $request)
    {
        try {
            $contact = Contact::create([
                'nama' => request('nama'),
                'email' => request('email'),
                'plan' => request('plan'),
                'project_date' => request('project_date'),
            ]);

            return response()->json([
                'success' => true,
                'message' => "success",
                'contact' => $contact
            ], 200);
        } catch (Exception $error) {
            return response()->json([
                'success' => false,
                'message' => "fail : " . $error->getMessage(),
                'contact' => null
            ], 500);
        }
    }
}
```

A status bar at the bottom right indicates: "You have deprecated extensions installed. We recommend to review them and migrate to alternatives." with a "Show Deprecated Extensions" link.

Back-End Development

# EDUCATION

Nurtured by knowledge, fueled by curiosity. My educational background encompasses a rich tapestry of learning, empowering me with the skills and insights to navigate the ever-evolving world of technology."

BEST QUALITY

The screenshot shows a contact form on a website. At the top left is the logo "Arsha PHOTOGRAPHY". The top right features a navigation bar with links: Home, About, Explore, "Check more photos" (with a camera icon), and a prominent "Contact us" button. Below the navigation is a large text "TRY TO PUT OUR SERVICE" with a circular graphic. To the right of the text is a hand-drawn style illustration of a camera. The contact form consists of four input fields labeled "name", "email", "project plan description", and "date project (mm/dd/yyyy)", followed by a "Send" button. At the bottom is a dark footer bar with the "Arsha PHOTOGRAPHY" logo and social media icons for Instagram, LinkedIn, Facebook, TikTok, and Pinterest.
